P.O. BOX 25 50 ELM ST. TEL. RE 7—6437

WEST SPRINGFIELD, MASS.

Established February 23, 1774

Form of Government
Elective Town Meeting System.

Population
Mass. Census 26,800 (1959).

Population of Age
Males 49.6%, Females 50.4%.

Predominating Nationalities of Foreign-Born
French, Italian, English, Bohemian Irish, Polish, German.

Area
17 sq. miles.

Average Temperature
27.5 degrees (Jan.), 73.1 degrees (July).

Parks
3 with 70 acres valued at $280,000. 1 outdoor swimming pool.

Assessed Valuation
$64,907,107.00 (1960).

Tax Rate
$46 per $1,000 (1959).

Bonded Debt
Town's bonded debt is $4,385,000.00 (Jan. 1, 1960).

Post Office Receipts
$453,000 (Dec. 31, 1959).

Church Buildings
14 with 7 denominations.

Building and Construction
Building permits issued valued at $3,173,-015. Number of permits issued 1959 307.

Industrial
Number of establishments 68, employing 4,200 men and women paying wages of $22,900,000 annually.

Banks
2 commercial banks and trust companies, 1 co-operative bank—1 savings bank.

Trade (Retail)
Retail territory serves 100,000 people within a radius of 10 miles totaling $40,000,000.

Newspapers
One.

Radio Broadcasting Stations
WTXL.

Principal Products
Paper, fibre boxes, machine gears, chemicals, paints, gasoline pumps, tin, solder, type metal, wood boxes, bound books, farm produce, magnetos, machine tools, trailer truck accessories, wrapping paper machinery and hair tonic.

Hotels
One with 25 rooms. Sixteen motels with accommodations for 500 people.

Railroads
Boston & Albany, Boston & Maine.

Amusements
One theatre, with a seating capacity of 850; 2 outdoor theatres, Junior High School auditorium seats 850. Community Y.M.C.A. Eastern States Exposition. High School auditorium seats 1,100. 2 outdoor theatres.

Educational
Number of schools 12, including 2 junior, 1 senior high schools and 2 parochial schools. Number of pupils in public schools, 4,015, in parochial schools, 1,000. Number of teachers in public schools, 185; in parochial schools, 28.

Public Library
One with three stations containing 45,484 volumes. Circulation, 100,000.

"What You Should Know About Your City"

"The helpful kind of patriotism is the kind that grows out of a knowledge of one's town, of her growth, her people, her property, her government and her needs. This knowledge develops, first, an intelligent interest: then, a sympathy: then a reasonable affection: a wise and temperate jealousy for her good name and a wish that she may prosper and grow more beautiful: and, finally, a desire to help her to become greater and finer, a bright and clean workshop and a home for the best of men and women."—John Cotton Dana.

HISTORY

The West Springfield that was and that is

West Springfield, Massachusetts, first off-shoot from Springfield, the "Mother Town," was the largest, most important settlement of this region. The first permanent house was built here about 1654. It became a separate parish in 1696. Its first church and its first school house were built in 1740. The attempt was made to incorporate it as an independent township in 1756 but not until February, 1774, was the incorporation accomplished. Exactly a month later in March of that year, the first town meeting was held in the old First Church (built 1702), on the common.

Before incorporation, the town numbered only a few houses scattered along "Shad Lane" now Main Street, southward to the old "Ferry Lane" now East School Street, thence extending by winding course to the Agawam River giving the route of George Washington's two journeys through West Springfield, and ending where the outlines of the old Agawam "ferrying-place" are yet plainly visible on the river bank near the Hamblen place.

West Springfield up to 1810 contained a greater population than the mother town and was for years the mainstay and support. Within the limits of the original territory of this settlement, William Pynchon and his associates planted their colony in 1636, but later moved to the east side to avoid floods. In 1653, the proprietors made an allotment of lands on the west side of the river, which were not occupied at once, but used as meadows and pastures. Gradually the settlers crossed over to build homes on the rich bottom lands. In 1696 the second parish, comprising three districts, Agawam, the Street and the Chicopee plains, was established on petition of the inhabitants. In 1774, West Springfield applied for and was granted the full powers and privileges of a town. Its original territory extended from the Connecticut state line to the fort of Mt. Tom and included the richest lands of the Mother town.

West Springfield has grown much in the 181 years since its incorporation. According to census figures, Springfield had grown enough when it had started to rival the population of its west-side daughter, to reach a more even balance. For example, the population of West Springfield as late as 1820 reached 3246, while Springfield was only 668 ahead! A closer balance than the two will never again reach! Because of the fear that it might bring an undesirable class, if the project of having the proposed United States Armory on the West Side was carried out, the town's golden opportunity had been passed! Thus supremacy in population, as well as greater industrial and commercial prosperity became settled on the East Side, where it has since remained!

OLD FIRST CHURCH OF THE COMMON

The old First Congregational Church on the Common, nearly opposite the present Town Hall, (see historic bowlder, marking the location), was erected within four years after the formation of the parish, as the date stated on the quaint gilded rooster weather vane, 1702. The building was 42 feet square, and with its gable-topped, "two-story" tower, was 92 feet in height. The architect was the veteran builder, John Allys, of Hatfield. The vane was said to be of precisely the same height and size of the imported-from-England bird which has been performing similar duty on the tower of the First Congregational Church in Court Square, Springfield. It was said to have been purchased at the same time, with three others, made by the English coppersmith.

The first story constituting audience room and galleries, with three outside doors, and two windows each side of the doors with corresponding windows above them to light the galleries and upon each of the four roofs projected a dormer gable with a window The pulpit, on the north side in place of a door, was lighted with one window on each side. Above this story was another much smaller than the first, having one window on each side and high roofs and gables like the one below, upon this was a third story smaller than the second with roofs and gables, the body portions of this story having on each side an opening to serve the purpose of a bell-room.

A drum was used for 41 years and then a bell was procured and used for 18 years when its tones were ruined in like manner and re-cast and replaced in its place in the tower; in 1802 it was transferred to the new church on the hill; it was re-cast in 1825 to enlarge its size. The building was clapboarded but never painted. All the windows were small with leaden sash glazed with diamond shaped glass.

All of the interior of the first story was all open, exposing to view beams, studding, rafters and

outside boarding, no inside finishing above window stools, the floor was laid at the bottom of the sills making it necessary to step over the sill to the floor. Two flights of stairs led up to the galleries in the south easterly and south westerly corners, starting each side of the door. Around the walls were 15 large square pews, in the central part were two rows of long slips fronting the pulpit with, a partition between them, one division being occupied by the men the other by women, one aisle on the east and one on the west side. Pulpit, pews and railing of oak and yellow pine, of the size, style and height of the pulpit nothing is definitely known, it was furnished with a sounding board.

This unique house of worship was occupied for a century without plaster or paint, or was ever a fire built within its walls, the women using foot-stoves with live coals. In 1748 Mr. Obadiah Frary, of Northampton, constructed a wooden "Meeting House Clock" and it was placed in the tower and was used for 25 or 30 years, when it became unfit for use and was removed The building being sadly in need of repairs, the parish gave the people liberty to make repairs which was done at expense of nearly $600.00; it was used 16 years after this, when it was abandoned for the new church on the hill, June, 1800, for which the contract price was said to have been $1400.00 and 10 gallons of St Croix Rum, valued at $60.00; no rum was used, its value in money divided among the men. 6 to 10 men were employed, and the contractor, Timothy Billings, thought he made $4.00 a day.

THE PUBLIC LIBRARY

In 1775, a library was established in West Springfield through the efforts of Rev. Dr. Lathrop, the pastor of First Parish, and John Ashley, a public-spirited citizen. There were 50 volumes in this collection, they were carried from house to house in a two bushel basket. It was considered a high honor to have the Library in charge. Beginning about 1850, the Library was in charge of the Town Clerk, during the long service of John M. Harmon. It was conducted from his home on Westfield Street, later from a room in the Town Hall assigned for library use. The annual appropriation was $50 plus the dog tax. By a payment of 50 cents a year, books could be drawn out on the first and third Monday of each month. Later the hours of opening were increased and the annual fee abolished. In 1887, a librarian, D. G. White, was appointed, who served until his death in 1913. The present building was completed in 1916 at a cost of $25,000, the gift of the Carnegie Corporation. It is erected on a site purchased by the town from William and Edwin Leonard, and maintained by an appropriation made annually by the town. In addition there are four trust funds the income of which is used to purchase books; the Daniel Granger White Nature Library, the Martha D. S. Ludington Fund, the Lillian Trask Williamson Fund for the purchase of reference books and books of travel, and the Josephine Pokorny Czecho Slovak Library for the purchase of books in the Bohemian language and books about Czecho Slovakia.

The building is open from 10 a. m. to 8 p. m. daily except Sundays and holidays. There are branch libraries in the Community Y. M. C. A., the John Ashley School, the Memorial Avenue School and the Riverdale School. Each of these is open one day a week in charge of an assistant from the central library. In 1954, the total number of volumes was 43,573 and the circulation for the year 87,712. An addition added in 1959 to the main building.

EASTERN STATES FARMERS' EXCHANGE

Skies on both sides of the Atlantic were becoming overcast with the clouds leading inevitably to war, when then this truly great world movement was quietly launched. Rev. John A. Sherley, a Bennington County (Vermont) Minister secured ready and sympathetic cooperation of the paper-manufacturer, Horace A. Moses. From the beginning, these two genuine philanthropists have worked untiringly and whole-heartedly for greater improvement in farm life and general community betterment. It was most fortunate the same broad motives have actuated both men. Mr. Moses has continuously and consistently counted Agriculture among his fields of manifold activity. The happy combination of Mr. Moses and Mr. Sherley quite promptly resulted in 1913 in the incorporation of the now-famous Hampden County Improvement League, whose large and commodious building on Memorial Avenue is a worthy landmark which now speaks for itself. An important outgrowth of this active philanthropy was the formation in January, 1918, of the Eastern States Farmers' Exchange. Touching further important upward steps of continuous progress came the Eastern States Agricultural Credit Corporation, organized August, 1923.

These several remarkable aggregations of man and means has resulted in establishing an "Exchange" like no other, anywhere, most effectively rendering material aid in modern Agriculture, now employing several hundred persons, and all accomplishing the same beneficent ends as those anticipated more than twenty years ago by its far-sighted founders.

EASTERN STATES FARMERS' EXCHANGE

The Eastern States Farmers' Exchange, Incorporated, founded in 1918, established headquarters in West Springfield in 1928. This is a cooperative association of farmers in nine northeastern states. The Exchange operates two feed, four fertilizer, and two insecticide production units. It grows seed in states across the country and in foreign lands, and operates 82 regional distribution depots, including one in West Springfield.

HAMPDEN COUNTY IMPROVEMENT LEAGUE AND JUNIOR ACHIEVEMENT

The Hampden County Improvement League, the agency which carries extension service to the people of Hampden County was founded by Mr. Horace A. Moses, on January 25, 1913. The aims of the organization as set forth in the bylaws are "to foster, encourage and promote all things in the communities of Hampden County which tend to increase the productivity of the soil, or to advance or conserve the educational, civic, moral and religious welfare of the communities." The League has assisted in the organization of extension work in twenty-four counties in New England, New York and Pennsylvania. In October, 1925, the League moved into a building of its own on the grounds of the Eastern States Exposition, given by President Moses.

The success of the 4-H Clubs in various parts of the country, prompted Mr. Moses to start something of the kind here.

The movement had the support of prominent men from the start. The late Theodore Vail assisted Mr. Moses in financing it, while President Calvin Coolidge was warm in his indorsement of the movement. The Rotary Clubs of the Nation raised $50,000 to assist Junior Achievement, and the entire country east of the Rocky Mountains, has felt its influence. In 1925, the Junior Achievement Building was erected on the Exposition grounds. This building was also the gift of Mr. Moses.

STORROWTON VILLAGE
On The Eastern States Exposition Grounds

Storrowton, the gift of Mrs. James J. Storrow of Boston, to preserve for posterity the peaceful charm and beauty of early New England village life, is the most *unique* village in America. The original Early American buildings grouped around the elm shaded green were chosen for this restored village

EASTERN STATES EXPOSITION is the largest agricultural exposition east of the Mississippi. Each year over 350,000 visitors see this famous fair which runs during the third week in September.

after painstaking search was made throughout the earliest settled regions of New England. Once found, each building was taken down, board by board, and then reassembled to the last detail at Storrowton, as they were first erected a century and a half ago.

Old Storrowton Tavern originally served the weary traveler in the hill town of Prescott, Massachusetts, as the Atkinson Tavern. It was built by John Atkinson shortly after the Revolution, upon his discharge from the Continental Army. The second floor has a large hall extending the entire length of the main building with a fireplace formerly used to heat it. In the old days, this was the most commodious space in the town of Prescott, Massachusetts and was frequently used for dances and other activities. The Old Country Store, always a part of Atkinson Tavern, is still a part of Old Storrowton Tavern.

Looking across the green past the white entrance gate, one sees the Gilbert Homestead, once a farm house in the Massachusetts town of West Brookfield. To the left of this is the Potter Mansion, (with the tiny Eddy Law Office in between). This mansion, built entirely with his own hands, belonged to another Revolutionary War soldier, Captain John Potter of North Brookfield, and was completed in the late 1700's. Delightful rooms are available in the Potter House for overnight guests. In back of the Potter Mansion may be seen the great Stagecoach Barn in which coaches once put up over night at Greenwich, Connecticut, on the journey from Boston to Albany. Looking to the far left corner one may see the Village Blacksmith Shop from Chesterfield, New Hampshire, and next to it the Little Red School House where, for more than 100 years, the children from Whately, Massachusetts, learned their three R's.

Dominating the village at the far end and raised by a low terrace from the level of the green, is the Salisbury Meeting House. The way in front is appropriately named "Sabbath Street." In this fine example of early New England church architecture may be found one of the oldest hand-made organs in the country. To the left of the meeting house is the oldest of the village restorations, the lovely gambrel-roofed Phillips House. This fine house was built in Taunton, Massachusetts in 1767. The Old Town Hall has now been joined to Atkinson Tavern to make the Old Storrowton Tavern as you see it today.

In season, there are still square dances in the great Stagecoach Barn with the old fiddler "calling" for the contra dances and quadrilles; and, that famous old New England sport, Bowling-on-the-Green. Located as it is on the grounds of the Eastern States Exposition, Old Storrowton Tavern is close to many events continually planned in the buildings of the Exposition. The Garden Show is a regular annual event, as well as a Home Show, Horse Show and various other shows; a circus, hockey and basketball games. Nearby, in the historic Pioneer Valley, are many places of interest for the visitor.

We will be only too happy to arrange a tour of Storrowton Village or give you directions to any points of interest in the Valley.

SCHOOLS

THE NEW WEST SPRINGFIELD SENIOR HIGH SCHOOL

The new school, on its Piper Rd. frontage, is located close to the street to achieve economy in the installation of utilities, service drives, etc. There is an entrance from Piper Rd., and one from Amostown Rd., both leading into parking areas to allow parking automobiles away from the highway.

Approaching the Piper Rd. entrance, you face the auditorium on your left, and the gymnasium on your right, with administrative offices connecting the two and facing on Piper Rd. Connecting the auditorium with the academic wing is the two-divisional cafeteria, seating a total of 500 pupils (during school hours) or the same number of adults at community events (after school hours). The auditorium seats 1,100, and is adequate for community needs as well as school functions. The stage is sufficiently large to accommodate school, amateur or professional theatricals, concerts and the like. The auditorium is serviced by ample dressing rooms, storage areas, band practice room and small group practice rooms. There is an attractive lobby facing Piper Rd.

The gymnasium seats approximately 850 at a basketball game or other indoor athletic events. For classroom purposes it divides into three sections for multiple use by various physical education classes, in addition to which there is a room for small-group educational activities. There is plentiful storage at either end of the gymnasium.

The academic wing (connected to administrative offices, auditorium and gym by the cafeteria section) is made up of sufficient classroom space to properly care for the multitude of subjects required in the modern High School program. There are rooms of varying sizes to fit the subject needs.

The building itself is of red-brick veneer over cinder blocks. It is both practical and economical, with widespread use of directional glass block and clear glass to provide natural lighting. Floors are of asphalt tile, except in the shops; ceilings are acoustically treated tile.

There are satisfactory areas to meet the needs in Homemaking, Industrial Arts and Art. The Building Committee recognized a need for these courses which stir a vital interest and enthusiasm on the part of many students not interested in a strictly academic program. For boys, there are adequate areas designed for Graphic Arts, General Shop, Agriculture, Metal Work, etc.; and, for the girls there are areas for advantageous teaching in Foods, Clothing, and Homemaking.

Thus every effort was made to plan a new High School from which our young people will come forth well-educated, and to which our older citizens will go forth for their many fraternal and community activities.

JOHN ASHLEY SCHOOL

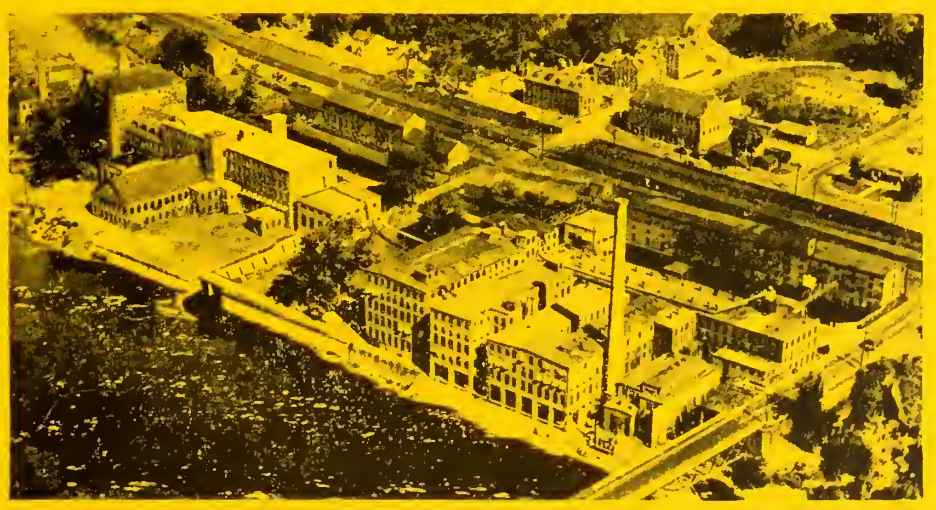
WEST SPRINGFIELD HAS GROWN RAPIDLY—DOUBLING ITS VALUATION BETWEEN 1940 AND 1956 AND CONTINUING A WELL-BALANCED GROWTH

INDUSTRIAL

West Springfield, because of its ideal location as an industrial center, has attracted outstanding and nationally-known industries to the community.

WICO ELECTRIC COMPANY

The Wico Electric Company introduced the first storage battery in 1897. Since that time magnetos, distributors, complex ignition systems, and other allied precision products have been produced by them. The modern 125,000 square foot one-story plant is designed for economical production with assembly line speed, and is located on the Boston and Albany Railroad and close to excellent trucking facilities.



STRATHMORE PAPER COMPANY

The Strathmore Paper Company mills in West Springfield turn out many of the letterhead, printing, technical, and artist papers that have made the name "Strathmore" synonymous with "quality papermaking" throughout the world. A Strathmore subsidiary, the Premoid Corporation, manufactures various grades of artificial leather and paper-based specialties.

RESIDENTIAL

People from all sections come to live in West Springfield, which has fine residential areas, with easy access to fine schools, churches of all faiths, stores, and factories. All of the well-established utilities are available to encourage a rapid growth of high quality homes.

WESTERN MASSACHUSETTS HYDRO ELECTRIC PLANT

Western Massachusetts Electric Company furnishes electric service to over 120,000 customers in 55 cities and towns in Western Massachusetts. Its new and modern 96,000 kilowatt steam generating station is located in West Springfield. The company is by far the largest taxpayer in the town, accounting for about 20% of the total assessed valuation.

GILBERT AND BARKER MANUFACTURING COMPANY

The 21-acre plant of Gilbert and Barker Manufacturing Company, a subsidiary of Standard Oil of New Jersey, produces Gilbarco oil heating equipment, service station equipment, and equipment for Petroleum bulk plants and terminals, known and used in every country on the globe where gasoline and oil are marketed.

COMMERCIAL

Because of West Springfield's ideal location, and other inducements, leading commercial establishments have come here to operate.

THE NEW SEARS, ROEBUCK AND COMPANY RETAIL STORE

Sears, Roebuck and Company built one of their largest, most modern retail stores in West Springfield, with a 600 car parking area. Although a recent addition to the town, this new location has proven very satisfactory and convenient to both West Springfield and Springfield shoppers. Sufficient and easily accessible parking space is a factor in drawing the large trade that this store does.

THE CARBORUNDUM COMPANY

The Carborundum Company opened a new modern office and warehouse with greatly increased stocking facilities for grinding wheels, coated abrasives, refractories, sharpening stones and loose abrasive grain to serve the New England Area.

With increased stocks, modern facilities for handling, and the latest warehousing methods using power trucks and pallet storage every inch of the 30,000 square feet of storage space, is utilized.

The warehouse is conveniently located on the corner of River Street and Sears Way in West Springfield, right on the Boston and Albany Railroad; daily shipments from Niagara Falls are received and handled with ease, and a large loading dock will accommodate several trucks simultaneously.

An efficient well-trained office staff offers prompt, courteous attention in expediting your orders . . . hence, faster deliveries.

WEST SPRINGFIELD GOVERNMENTAL DIRECTORY

TOWN HALL, 126 PARK

TOWN OFFICERS

Moderator - Frank T. Raleigh.
Selectmen - Raymond J. Rosa, Chairman; Walter J. Cogans, Rudolph W. Leske.

West Springfield Post Office - 74 Elm. Postmaster, Richard J. Specht.
Mittineague Station - 94 Front. Edward W. Talmadge, Clerk in charge.
Station No. 1 - 1162 Westfield. George M. Atkins.

I AM

I sit in the castles of business and at the hearthstones of many homes, mighty in my power to serve.

Through me is the power to make people talk with intelligence concerning their communities.

With extended hand I guide the wearied traveler, and to others shorten the distances between destinations.

In me abides the essence of democracy, as side by side is found all nationalities, rich and poor alike.

With uncanny certainty I unite long-lost friends and make glad the missing heirs.

Through me are protected the law-abiding by tracing the criminal to his hiding place.

Through me, in the friendliest way, new trade channels are opened.

I am the key that unlocks the gate to what your community is, for all who would pass its portals.

I Am Your City Directory

When You Want to Know:

—where a person lives.

—what his occupation is.

—who lives at a certain number on a street.

—where a street is located.

—the correct spelling of a name.

—the officers of a corporation.

—the partners in a firm.

—the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.

—***you can quickly find the answer in the City Directory.***

THE SHORTEST DISTANCE BETWEEN TWO POINTS IS A STRAIGHT LINE

Your City Directory is the Straight Line medium to bring Your Merchandise and Your Services direct to the buyer.

• • •

There is no running around in circles before finding the commodity or service the buyer wants to purchase.

• • •

The Buyers Guide and the detailed listings in your City Directory form the STRAIGHT LINE to your needs.

Common Sense

About City Directory Circulation

THE true value of advertising circulation is *circulation consulted.*

TO be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

TO be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR every thousand directories sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days,* therefore—

1000 x 3½ x 305=
1,067,500

Consultations or

Circulation Consulted

Mr. Citizen! . . . . . .

Correct Information Is Valuable to You!

¶Cooperate with the City Directory enumerators to see that your name and those of your family are correctly listed in each edition. *Your name, listed correctly in the City Directory, is a great asset.* This has been proved thousands of times, especially in cases of employment application, proof of residence, questions relating to citizenship, applications for welfare assistance, distribution of mail, etc. Be better established . . . be on record as a local citizen by seeing that your name is not missed or incorrectly listed in the Directory.

High Hurdles. . . .

In business as well as in sports there are High Hurdles to overcome. Your ad in the Directory, where multitudes will see it, will help to overcome many of the business hurdles.

Rx for BETTER BUSINESS

If your business is in a slump, we prescribe an ad in the DIRECTORY—it will bring results.

Common Sense

About City Directory Circulation

THE true value of advertising circulation is *circulation consulted.*

TO be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

TO be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR every thousand directories sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days,* therefore—

1000 x 3½ x 305=
1,067,500

Consultations or

Circulation Consulted

planning *is important to success!*

Just as you plan your production schedule, so you must plan your advertising. The Directory will give you the most for the least . . . include the Directory in your advertising program.

DO YOU KNOW?

That the **Directory** of your city is on file in the **Directory Library** in all of the principal cities of the United States and Canada and that information about you is in it, accessible **Anywhere in America?**

ARE YOU PROPERLY DISPLAYED?

THE SHORTEST DISTANCE BETWEEN TWO POINTS IS A STRAIGHT LINE

Your City Directory is the Straight Line medium to bring Your Merchandise and Your Services direct to the buyer.

• • •

There is no running around in circles before finding the commodity or service the buyer wants to purchase.

• • •

The Buyers Guide and the detailed listings in your City Directory form the STRAIGHT LINE to your needs.

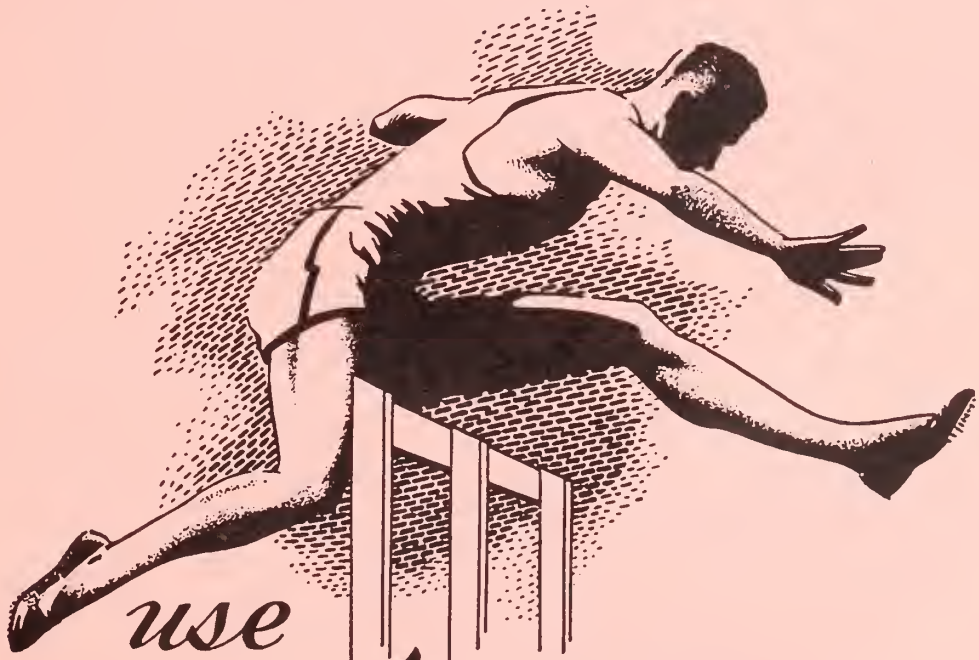
High Hurdles. . . .

In business as well as in sports there are High Hurdles to overcome. Your ad in the Directory, where multitudes will see it, will help to overcome many of the business hurdles.

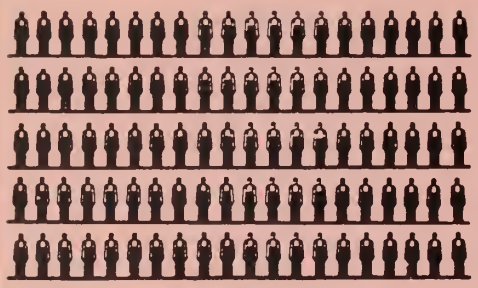


use

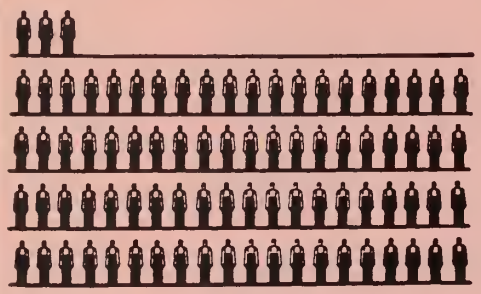
DIRECTORY

Advertising

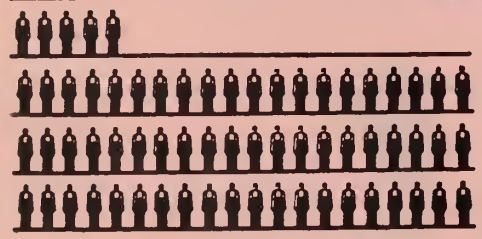
HOW MANY CHANGES IN A YEAR?



Out of every **100** People as listed in the last Directory



16% to **18%** Move away or die



17% to **19%** "New" people move into town or reach listing age.

26% to **29%** More change their addresses or their jobs or some other vital fact that affects their listing.

(All that's left that's good)

Making a total of **59%** to **66%** of the People listed who have new information in some particular which can be surely found only in the **NEW DIRECTORY**

Note: These figures are from repeated checks in numerous cities and do not vary 5% in any one year.

THAT IS WHY NEW DIRECTORIES MUST BE PUBLISHED EVERY YEAR.
